What is the Evaluation and Monitoring System (EMS)

The Evaluation and Monitoring System (EMS) is an application on DYCD Connect that enables DYCD to evaluate a program site according to its program criteria. A program's criteria are divided into indicators which are typically assessed on a 4-point rating scale or Yes/Partial/No:

Above Standard	Meets Standard	Below Standard	Far Below Standard
Program	Participants	 Participants rarely 	 Participants are
intentionally plans	consistently express,	express, or are	never given the
for opportunities	or are asked to	asked to express,	opportunity to
when participants	express their ideas,	their ideas,	express their ideas,
are offered to	concerns, and	concerns, and	concerns and
express their ideas,	opinions, in	opinions; these	opinions; staff are
concerns, and	structured or	opportunities	dismissive of
opinions in both	unstructured	happen irregularly	participants'

unstructured		arises.	and feedback.
opportunities.			
Participants			
are listened to and			
know that their			
input and feedback			
(voice and choice)			
inform program			
design and			
implementation.			

A rating of No, Below Standard or Far Below Standard will trigger either a Strategic Action Plan (SAP) or Corrective Action Plan (CAP) for the provider.

Creating an Evaluation

Worksite Application evaluations are created in the application itself. To get there, you will need to go to the "Worksite Application" section of DYCD Connect and select the workscope # in question.

CONNECT	Main Menu 🗸	Worksite Application	> NYC Department of			
٢	IT Settings	Training	?			
ntake	Contracts	🚺 Evalua	tions	Worksite Employer	+	Participant Attendances
articipants	+ Program Areas	🚹 Incide	nt Reports	Worksite Application	+	Group Activities
	Program Types	(🗐 CAPs	++	Worksite Pre-Assessm	+	Attendance Global Un
	Providers	Perfor	mance Evaluatio	Seasonal Assignment		
	Program Sites					
	Provider Conta	cts				

Once you arrive at the workscope, you should navigate to the "Evaluations section of the switchboard, as seen on the right. In this section, you will see all evaluations that already exist for this workscope. To create a new one, you will need to click "Ad Hoc Evaluation" and then click "create" next to the "SYEP FY23 Worksite Evaluation".

Assigning an Evaluation

An evaluation consists of four sub-sections called Evaluation, Indicators, SAP, and CAP. Evaluators must first assign themselves to the evaluation before they can begin any work on the evaluation. To assign yourself as the evaluator, click on Evaluator Actions and then Assign Evaluation.

NYC	Department of Youth & Community Development		ECT	Main Mer	nu 🗸	Evaluations	>	EVI
EVAL	UATOR ACTIONS	•	EVALUATIC	IN REPORT	ස EN	MAIL A LINK		
2 AS	SIGN TO ME							
EVL-05137	7 - Test Eval for	Training						

Evaluators begin in the Evaluation section, then jump to the Indicators Section to respond to each indicator. Depending on indicator responses, SAP or CAP action items may be triggered and will appear in the SAP or CAP sections.

Worksite evaluations are very similar to normal workscope evaluations, except for a few added features, like the Program Area field. This field allows you to see all worksite applications that are attached to the specific Program Area.

Indicators are evaluated to determine an evaluation rating. There are four categories of indicators: Administration, Program Practice, Service Quality, and Outcomes/Outputs. Each of these categories has sub-indicators that are evaluated and aggregated to develop a total rating for the category.

Then, the ratings of each category are aggregated to provide the overall rating of the evaluation.

To complete the indicators, navigate to the indicators and respond to each indicator according to the options available. Then, click Save at the top left of the page. Finally, from Evaluator Actions, click Lock Evaluation to generate the overall rating for the evaluation.

After locking the evaluation, you may review your responses to indicators in three different formats.

What is a Strategic Action Plan (SAP)?

Strategic Action Plans (SAPs) are a feature of the Evaluation and Monitoring System (EMS) that enables DYCD Program Managers to formally tell a provider that their service needs improvement. SAPs are not punitive and are often used to track follow-up action items for a provider after an evaluation. On the provider side, SAP action items can be responded to by a user with a Provider Program Director or Provider Admin DYCD Connect account.

Completing the SAP Sub-Section

A Strategic Action Plan is automatically created after an evaluation is locked in EMS, and a SAP triggering indicator receives a rating of No, Below Standard or Far Below Standard. A SAP contains a series of strategic action items, one per indicator which received the lower ratings.

	=		

Note: For each action item, an evaluator must indicate if a response is required from the provider and leave comments on the issue. After all action items have a response, the evaluator must send the evaluation to their supervisor for review.

What is a Corrective Action Plan (CAP)?

Corrective Action Plans (CAPs) are a feature of the Evaluation and Monitoring System (EMS) that enables DYCD Program Managers to formally tell a provider that their service needs major improvements. CAPs are punitive and may impact a provider's Performance Evaluation rating. On the provider side, CAP action items may be completed by a Provider Program Director or Provider Admin, but the Corrective Action plan must be signed and sent to DYCD by the executive director of the organization.

Completing the Corrective Action Plan as an Evaluator

A Corrective Action Plan is automatically created after an evaluation is locked in EMS, and a CAP triggering indicator receives a rating of No, Below Standard or Far Below Standard. A CAP contains one or more corrective action items, one per indicator which received the lower ratings.

Step 1: Set the Initial CBO Response Due Date.

Step 2: Click into each corrective action item and add evaluator comments. Then, click "Save" at top right of the Strategic Action Plan table.

🕫 Corrective Actio	on Plan Click here data into	to save your SAVE CRELOAD CAP REPORT

What Happens After Submitting an Evaluations?

After an evaluation is submitted, it is reviewed by the supervisor. Upon review, it may be sent back to the evaluator for modification before final approval and sending it to the CBO. If sent back, then the evaluator may review the internal communication sections for feedback and modify the evaluation.
